

DJM Prayer

(by Fr. Santan Pinto SOLT)

O most holy Trinity, Father, Jesus and Holy Spirit as a disciple I come to you with Mother Mary. I beg the intercession of all the angels and saints that they may favor us by joining in this prayer for your honor and glory O Trinity, my family!

Grant me the joy that comes from your heart O infinite love! I thank you for creating me and for all the ways you have been forming me till this present moment. I pray that I may never cease thanking you for your gifts, graces, and blessings that you shower on me an unworthy sinner. Yes it is with all the sinners I too am attracted to your Heart of Jesus. In you I find the rest that my mind seeks, the peace and joy that my heart longs for and the abundance of life and grace that my soul thirsts for.

I have offered you the plan of life that is written in your heart. I have tried to discover it and continually work on it so that I may grow in your favor. It is in your plan that I find the direction I must take. There are countless choices in life but give me the strength to choose what is pleasing to you and what will bring salvation to many.

Every day give me the joy O Mother of God to walk with me. Please hold my hand and guide me daily to follow Jesus. It is my desire to imitate how Jesus loves our Father by doing His Holy Will. O Holy Spirit, the fire of divine love, burn in my heart as a lamp of devotion to the Most Holy Trinity. Anoint me with your precious gifts that I may have the courage to speak boldly of your love for all.

I pray in a special way for all Missionaries of Mercy who devoutly offer their suffering to you. Receive their offering together with all the work of the disciples of Jesus of Mary. Grant eternal rest to all those who have returned home! I remember especially all the deceased disciples and missionaries of mercy. Lastly I bow in humble adoration before your presence O Mighty One, bless your family and watch over the young and the weak, keep them in your love.

With my priestly blessings,
Fr. Santan Pinto SOLT
